DANZIG, July 2 (Reuter)—While there is no confirmation yet of the report that Herr Hitler will visit Danzig at the end of July to be presented personally with the honorary Danzig citizenship bestowed on him on his birthday, preparations for eventualities are going feverishly ahead.

MOVEABLE BASES FOR SUBMARINES AND SMALL CRAFT

LONDON, July 2 (Reuter)-Recent developments in the German Navy leave no doubt that Germany is planning to make good her deficiency in overseas naval bases by the provision of a number of seagoing depot and repair ships, says the Naval Correspondent of the "Sunday Times."

These could be used as moveable bases for submarines and small craft operating outside the North Sea and would assist them to operate for long periods from their main bases and to make the greatest use of their allies' harbours.

Recently Begun

The correspondent states that the provision of these depot ships was begun only recently and that shipyards are unable to undertake. the work without slowing down the building of warships.

Hence, while some of the depot ships are being built, the Admiralty Well-informed quarters do not has taken over a number of merbelieve that the preparations fore- chantmen and has fitted them out shadow a sudden coup in the face as depot ships.

The correspondent adds that Germany now has eight submarine depot ships for motor torpedo boats and this is considered significant, when it is considered that the British Navy, with worldwide commitments, has only eight such ships which can be considered as seagoing units.

Lord Samuel added that another 1,400 "permit cards had been "sent to Germany; and that these young Jews would be brought over here "as soon as transport facilities allowed." Thus, he added proudly, the total number of refugee children in this country, or a due to arrive was 8,000.

He thought that was a somewhat remarkable achievement!

The "generosity" of a section of the British nation had enabled these children to be brought over. he said, and added that he had been informed by Sir Charles Stead that if one were to translate into cash value the amount of hospitality, etc., received, the total would be in the neighbourhood of £2,000,000.

PAST STUDENT TEACHERS' UNION FORMED

Not Opposition To Association

The Past Student Teachers' Union was inaugurated on Saturday afternoon following a meeting held at the Hotel Cecil.

The alm of the Union, it was stressed, was to represent the needs of the student teachers but not intended as an opposition party to the present Teachers' Association or to intimidate the Education Department and heads of the schools.

Mr. Chung Wah-leung presided at the gathering.

It was pointed out by a speaker that one of the teachers had been teaching for 18 years and up to the present his salary was only \$180 a month, notwithstanding the fact that he had a wife and an aged mother and family of eight children to support.

It was opined that the present Teachers' Association, though efficient, really served the needs of the past student teachers. Most of the members of the Association were persons with degrees or in Government Schools and the forthcoming Government scheme for exercising more control over the grant-in-aid schools did not affect them.

NO TOLERATION OF DOMINATION

LONDON, July 2 (Reuter)—"We will not tolerate domination by another, or loss of our liberties, or dictation in our affairs and if that is attempted, we are ready now as a united nation to defend ourselves and to that end we shall gather all allies and resources available," declared Sin Stafford Cripps, K. C., speaking at Forest Dean.

Sir Stafford Cripps continued: "No one at this moment doubts that there is a very grave danger that a world war will be breaking out within the next three months, but however terrible the prospect, the great majority of our people are prepared to make any sacrifice for those things which they hold dear and believe worth while in the world."

POLES INTO INFILTRATION $\mathbf{0F}$ FREE CITY: ACT OF VIOLENCE BE TAKEN AS ACT OF WAR

LONDON, July 1 (Reuter and T/Ocean)-While the French Premier, M. Edouard Daladier, was telling the Council of Ministers in Paris to-day that the International "situation" remains very serious," a spokesman of the Polish Government in Warsaw announced that Poland had already started to take countermeasures to the Nazi moves in Danzig.

Stating that Poland was watching the latest developments in Danzig "with close attention," the spokesman added that Poland would meet each further Nazi move with appropriate retaliation.

While Poland had no intention of provoking trouble, in spite of the present provocative Nazi actions, Polish youths had been sent to Danzig as a check to the large influx of German Storm Troopers. Infiltration of Poles into the Free City commenced to-day.

Rumours were again current in London and Paris to-day that a Nazi coup may be expected in Danzig this week-end, but there is no official confirmation.,

Press Comment

Meanwhile, in London, Times" in an article by its diplomatic correspondent, later stated semi-officially to represent the views of the British Government, deals with the possibility of the imminent outbreak of a crisis owing to the encouragement by Berlin of an allegedly spontaneous movement in Danzig for incorporation in Germany.

"The Times" says that any such attempt to force Poland into the position of aggressor would be a transparent manoeuvre.

An Act Of War

The diplomatic correspondents of 'The Times" and other newsmen who lost their lives in the papers were invited to the Foreign Office and handed the above state.

MAKING FACTORIES INVISIBLE FROM THE AIR AT NIGHT

A system of artificial lighting, for rendering factories invisible from the air at night, has been developed by Messrs. Metropolitan-Vickers Electrical Company, Limited, of Trafford Park, Manchester. The system involves two components—a sodium source fitted with an enveloping filter, and a lacquer in the complementary colour of the emitted light, which is sprayed on to windows, roof lights, etc.

The lamp and filter produce a narrow band of monochromatic yellow light to which the lacquer is opaque, and it is claimed that their combined use does not allow any visible radiation to penetrate into the outside atmosphere.

"The lacquer is sprayed on to the outside of the glass, forming a matt surface which prevents light from outside sources being reflected on it, and yet allows sufficient daylight (10 per cent.) to pass for general machine work and assembly processes to be carried out on a normal day without recourse to artificial lighting.

The market displayed a steady undertone with a good demand for "actuals" by consuming centres. There were also fair enquiries

for futures by dealers and speculators in evidence. The better sentiment was attributed to more reassuring political. news from Europe as well as to a continuance of encouraging business prospects in U.S.A., although Motor-car production showed a slightly more than anticipated decline for the week ending June

"Closing tone was quietly steady.

The market again displayed ar easy appearance at to-day's opening, with a lower adjustment of prices. However, a better tone was evinced later, and the market became quiet but firm. Prices advanced on trade and speculative buying. "Bear" covering also imparted some impetus to the advance." Some strength in "spots" was in evidence. However, uncertainty continued to prevail over the subsidy question. On the whole, price movements were confined to a narrow range.

Market closed.

CHICAGO WHEAT

Prices moved lower on hedge-selling and profit-taking. Reports of heavy receipts were the cause of general liquidation.

The case was re-opened on the complaint of the American Commissioner that the Germans had put forward a dishonest defence and were guilty of "fraud, perjury and the supression of evidence."

Mr. Justice Roberts agreed with this charge. In 1930 the Mixed Claims-Com-

The American claims amount to £10,000,000. Bonds posted in Germany as surety are now said to be worthless, and little hope is entertained of obtaining payment. The principal claimants were:

The Lehigh Valley Railroad Company, Bethlehem Steel Corporation, Canadian Car and Foundry Company, and insurance underwriters.

Tsui Wai-pui Beats V. T. Wang In Fine Singles Match At C.R.C. Exhibition

SCINTILLATING RALLIES SEEN IN THREE SETS

Visitor's Cramp Prevents Appearance In Doubles

(By "TAC")

Justifying the tremendous enthusiasm that had been evinced in many quarters in their match, V. T. Wang, ex Shanghai champion now in Hongkong, and Tsui Wai-pui, Colony champion and Chinese Davis Cupper, gave perhaps the best exhibitions of singles tennis seen locally this year, when they met at the Chinese Recreation Club in the course of a series of matches organised in aid of charity.

The men were very evenly matched and Tsui's victory was one of the best things he has done for a long time, as, for some time past he has been playing in a class below his own. Yesterday he found himself up against a man who always played as well as he did and at times was his superior.

More credit to him, there- Doubles Rearranged: fore, for rising to the occasion, meeting brilliance with brilliance, verve with verve, and, last but not least. stamina with stamina. In the final analysis it was perhaps this that gave him the victory.

Played in an atmosphere that was nothing short of torrid, with a broiling sun overhead and little or no breeze, the three sets of fast, hard-fought tennis must have best player on view, but both he taken strong toll of both men, and his partner were at times Both looked fit as they took the erratic and gave the opposition showed signs of distress.

After the second set, with the scores level, there was some talk of stopping the match there, but it was decided to have an interval of ten minutes and then play the final set.

But thereafter there was an amazing reversal. Tsui rattling off five games in a row to go out at 6-3. It was now the turn of the Northern champion show distinct signs of weariness and, except for a last "kick" at the end, he was hardly in the picture once 3-3 had been called.

THE PLAY

The best tennis was seen in the first set, which Wang won at 8-6. Practically everything that goes to make up the perfect tennis match was there, with first one man and then the other dominating the exchanges.

Wang's main strong points were a standing forehand drive off service, frequently catching the local man unprepared, and an agility at the net, which, with the added advantage of his reach both sideways and overhead, made passing him a difficult task.

Tsui found that trying to pass him straight down the line, or cross-court was well-nigh impossible and in the latter part of the game resorted to a well-concealed lob, often taken on the volley. which proved far more successful.

The local champion on his part pulled off some extraordinary shots—as usual mostly when he was in an "impossible" position. His forte was an acutely-angled length drive which at times literally left his opponent standing, and there were some lovely chop shots which, though Wang at times also used effectively, he could not equal in delicacy of execution, and nicety of placement.

ing the former period it did not A. M. Xavier, D. C. Alves, C. M. S. look a certainty on his losing the Alves, and C. Roza-Pereira (skip)

The second set was something of an anti-climax, taking only ten was a beaten man-and there were quite a few-were surprised when he swept the visitor off the court, losing only one game.

The third set has aiready been described.

Wang Has Cramp

Following the match it was stated that Wang had developed cramp and would not take part in the doubles, which was eventually played between H. D. Rumjahn and Tsui Yun-pui and Tsui Wai-pui and Szeto Bick, and won by the former

The singles champion was the court and it was not till we into opportunities which they were not the second set that, first the local slow in seizing. On the other side champion, and later the visitor, Yun-pui was more prominent. Rumjahn put in some useful work, but most of the brilliant winners were pulled out by the younger Tsui, who often engaged his brother in a volleying duel from which he by no means always emerged loser.

VETERANS IN MIXED DOUBLES'
